

# Soil Biology Masterclass

For growers, consultants & agronomists

1 - 2 September 2026 Forrest Hall, Crawley, 6009

Incorporating soil health and biology with management practice to sustainably increase productivity and profitability

## Learn:

- how soil biology underpins resilient farming systems.
- about future directions of research technologies and practices.
- from practitioners with on-farm experience of pathways to adoption.

**Network** with guest speakers and experts including:

- Prof. Brajesh Singh
- Prof. Lyn Abbott (Emeritus)
- Mr Stuart McAlpine
- A/Prof. Catriona Macdonald
- Dr Juntao Wang
- and others
